1	DIRECT-7B-HP OfficeJet Pro 8720 Secured				
Network & Internet settings Change settings, such as making a connection metered.					
(iii		ц>	(ip) Mobile		
Wi-Fi		Airplane mode	hotspot		

2.) Connect to your WiFi network by clicking on its name when listed.

- Mac will automatically open a web browser to prompt for your voucher code and accept the terms of conditions.

- For Windows, you will need to open a web browser then navigate to a web page. (ex: coyotevalley101.com) Then it should prompt for your voucher code and accept the terms of conditions.

Now you should be successfully connected to your Wi-Fi.
